11 3856-9002

ABOUT ME

So far, it has been three years since I started programming, and I have learned many technologies, such as Python, Django and data analysis. Afterward, I got my first job as a developer, where I have been expanding my skills in Python, MongoDB, and Git.

I'm keen to keep learning to get to the next level.

WORK EXPERIENCE

Python Developer & Data Analyst (Nov 2021 - Present)

BB Media - <https://bb.vision/soluciones-es/>

- Development and maintenance of scripts with Python.
- Streaming page scraping and data analysis with Pandas and NumPy.
- Storage and manipulation of data in databases with MongoDB.
- Use of Git and Agile Methodology.

COURSES

Backend development with Python and Django

Platzi - <https://platzi.com/backend-python/>

- Advanced level Python
- Object-oriented programming
- Web development

Data Engineer

Platzi - <https://platzi.com/dataengineer/>

- Big data
- Web Scraping
- Cloud computing

EDUCATION

Degree in Computer Science (Mar 2020 - Present)

Universidad Siglo 21 - <https://21.edu.ar/>

Studying third year, preparing the final exam to obtain the intermediate Degree of Computer Systems Analyst.

Roseland School of English (2019 - Present)

English classes

Studying fourth year.

KNOWLEDGE

Python Libraries/Frameworks

- Data Analysis: Pandas, NumPy, Seaborn
- Automation: Selenium, Playwright
- Development: Tkinter, Django

Commands

- Git
- Bash
- SQL & NoSQL

Frontend

- HTML
- CSS
- JavaScript
